

# CATV Amplifier 28 dB 86-1006 MHz 1 Outputs Active Return Path

## General information

Amplifier with gain and slope control and one output to connect to a home installation to receive ultra-clear TV signals. It also creates an active return path which supports interactive TV and a cable (internet) modem.

## Specifications

Output level:	110 dBuV
Power consumption in operating mode:	250 mA
Gain control:	0-18 dB
Slope control:	0-18 dB
Frequency range:	86-1006 MHz
Return frequency range:	5-65 MHz
Max. return path:	19 dB
Impedance:	75 Ohm
Gain:	28 dB
Noise figure:	9 dB
No. of inputs:	1
Return path:	Active
No. of outputs:	1
Colour:	White
Features:	Active Return Path
Usage:	Indoor
Power plug:	UK / Type G
Application:	CATV
Input voltage:	12 V
Connector type:	F-connector

## Sales information

Order code:	<b>KN-PROAMP31AUK</b>
Product description:	CATV Amplifier 28 dB 86-1006 MHz 1 Outputs Active Return Path
Packaging:	Giftbox with eurolock
Brand name:	König

Quantity	LxWxH (mm)	Weight
